

Best selling pet feed pellet mill

Pet feed pellet mill is designed to make feed pellet for pet like dog, fish, cat, bird, rabbit., etc and poultry like chicken, goose, duck, pigeon and so on.

The pet feed pellet mill can make feed pellets with different shape, such as: round shape, triangle shape, cross shape, three prism curve shape, square shape, quincunx shape, foot shape, disc shape, bone shape and so on. Just by change the mold you can make different kind of shape. On each mold there is a hole with a specific shape.

The pet feed pellet mill is easy to install, operate and maintenance, just connect the machine and electric panel to your electricity supply, turn on the machine from the electric panel, the panel will control the heating to the extruding chamber and the whole machine working. When the machine heating to the required temperature, feed the ingredients to the feeding hopper, the screws in the extruding chamber will press the feed pellets out from the mold. So, during operation just need to control the electric panel and feed ingredients to the machine. As for the maintenance, just need to change the spare parts when it is worn out. Due to the simple structure of the machine, change spare parts is very easy, open the extruding chamber, take out the old parts and replace to a new one, the machine can work to produce qualified pet and poultry feed pellets again.

Technical data of pet feed pellet mill

Model	Motor	Capacity	Machine size	Weight
40B	5.5+0.4+0.4Kw single phase	30-40kg/h	1400*1030*1200mm	225kg
50C	11+0.4+0.4Kw	70-80kg/h	1470*1100*1250mm	315kg
60C	15+0.4+0.4Kw	100-120kg/h	1470*1120*1250mm	360kg
70B	18.5+0.4+0.4Kw	200kg/h	1650*1400*1300mm	575kg
80B	22+0.6+0.6Kw	200-250kg/h	1800*1450*1300mm	690kg
90B	30+0.6+0.8Kw	350-400kg/h	2100*1450*1300mm	940kg
120B	55+1.1+1.5Kw	500-600kg/h	2400*1950*1600mm	1730kg
135B	75+1.1+2.2Kw	700-800kg/h	2550*2050*1650mm	1950kg
160B	90+1.5+3Kw	1000kg/h	3100*2650*1800mm	3240kg
