

PTO pellet mill is a kind of flat die pellet mill, it have totally same structure as [electric flat die pellet mill](#) but itself do not have engine, it need a tractor to give power by a PTO transmission shaft.

Use this pellet mill can make both biomass fuel pellets and animal feed pellets.

The advantage of PTO pellet mill is it do not need electricity, only fix to a tractor is enough to work.

When you choose a PTO pellet mill just refer to the output horsepower of your tractor and the horsepower requirement of our pellet mill.

PTO pellet mill structure

PTO pellet mill technical data:

Model	Horsepower	Capacity		Flat die Φ	Weight	Dimension
		For wood pellets	For animal feed pellets			
120P	8 HP	40-60Kg/h	60-100Kg/h	120 mm	90 Kg	760x420x710mm
150P	13 HP	50-90Kg/h	90-120Kg/h	150 mm	100 Kg	760x420x710mm
200P	15 HP	110-140Kg/h	200-300Kg/h	200 mm	160 Kg	770x560x1020mm
230P	22 HP	150-190Kg/h	300-400Kg/h	230 mm	180 Kg	770x560x1020mm
260P	35 HP	200-280Kg/h	400-600Kg/h	260 mm	230 Kg	770x560x1150mm
300P	55 HP	250-320Kg/h	500-700Kg/h	300 mm	290 Kg	770x560x1150mm
360P	55 HP	300-380Kg/h	700-900Kg/h	360 mm	330 Kg	870x850x1160mm
400P	55 HP	400-500Kg/h	900-1100Kg/h	40 mm	420 Kg	870x850x1160mm
